

TF TECH-FLO® Zeta Zinc 22% *plus 2.5% Sulfur*

Zinc (Zn) is essential for plant growth because of its ability to influence auxin levels, growth hormones, and stem elongation.

Make the most out of your spray applications. TECH-FLO Zeta Zinc 22% supplies enough nutrients to make a noticeable difference. Our controlled-release formulation is safe to use on sensitive crops, all season long.

- Influences bud vigor and fruit set
- Improves winter hardiness
- Influence stem elongation
- Prevent shatter in grapes
- Promote seed formation/maturity
- Safe to use throughout growing season
- Increases yields
- Mixes easily, even with oils

Our unique nutrient delivery system POLYSORBYGEN® improves nutrient uptake, translocation, and utilization by plants. No need to add buffers, activators, surfactants, or compatibility aids. Just add to the tank mix and GO!
