

# ROOTERRA™

## INCREASED EAR WEIGHT BETTER YIELDS

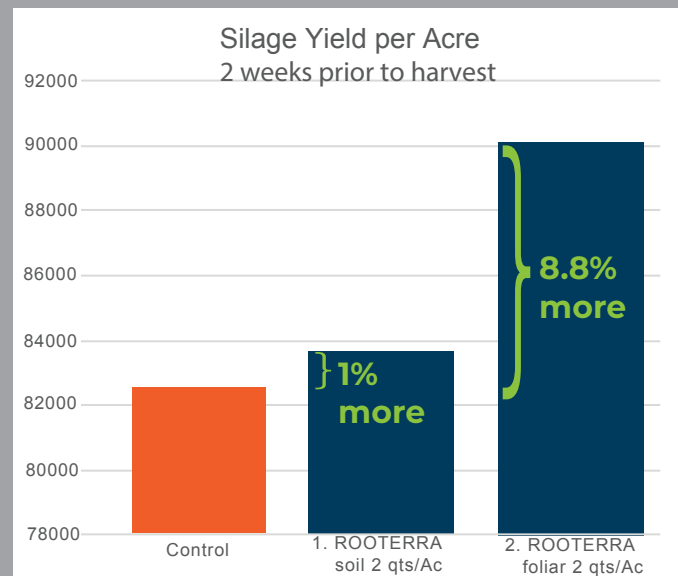

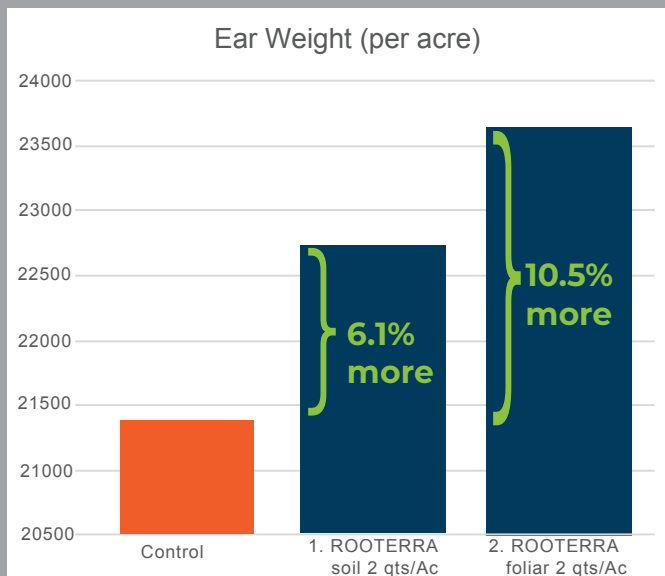

### Bio-Fertilizer Increases Ear Weight, Yield per Acre and ROI

In a third party trial on Round-Up treated silage corn, ROOTERRA 9-3-7 showed improvement in ear weight with more girth and ears filled to the end when compared to the grower's standard fertility program. Overall tonnage was also increased.

### Field Trials

**•Faster Vegetative Growth • Increased root mass • Better yields**

Synergistic natural compounds and essential nutrients in ROOTERRA stimulate early root development, plant vigor and growth to maximize crop yield and quality.
