

**GUARANTEED ANALYSIS**

Available Phosphate ( $P_2O_5$ )..... 26.0%

Soluble Potash ( $K_2O$ ) ..... 28.0%

**Derived from:** Phosphoric Acid and  
Potassium Phosphate.

**13.60 lbs/gal at 68°F**

**F1132**

**PROVIDES ESSENTIAL PLANT NUTRIENTS IN A  
WATER-SOLUBLE FORM**

**KEEP OUT OF REACH OF CHILDREN**

**WARNING: Causes eye and skin irritation**

Wear protective clothing, gloves, eye and face protection. Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling. Remove and wash contaminated clothing before reuse. Avoid breathing vapor, mist or dust from this product. Not for human or animal consumption.

**If in eyes:** Rinse thoroughly with water for several minutes. Continue rinsing and get medical attention if eye irritation persists.

**If on skin:** Wash with plenty of soap and water.

**If swallowed:** Rinse mouth and get medical attention if you feel unwell.

**NOTICE:** Do not store this product at temperatures below 40°F as precipitates may form that are difficult to dissolve. DO NOT expose to temperatures below 32°F.

## RECOMMENDATION USES FOR HI-K

Uniformly apply the suggested rates of in the following amounts of water per acre.

**COMPATIBILITY:** This product is compatible with most crop protection materials. A compatibility test is recommended when using new combinations. Do not mix with lime or TPTH.

| FOR FOLIAR APPLICATION                       |   |  |   |
|--|---|--|---|
|  | Dilution  | Rate   | Application Timing  |
| Field, Row & Vegetable Crops                 | <b>By air:</b> 3-20 gal<br><b>By ground:</b> 5 gal min  | 1 pt - 4 qts                                 | Apply every 2-4 weeks as needed, starting pre-bloom                 |
| Tree & Vine Crops                            | <b>By air:</b> 10 gal min<br><b>By ground dilute:</b> 100-500 gal<br><b>By ground concentrate:</b> 25-100 gal | 1 pt - 4 qts                                 | Apply every 2-4 weeks as needed, starting pre-bloom to post harvest |
| In oil sprays: use 1-4 pints per 100 gallons |   | Minimum dilution rate: 1 quart per 3 gallons |   |

**NOTE:** Product may leave residue on crops when applied at higher concentrations or at higher usage rates. Product tank mixed with soluble Calcium foliar fertilizers may leave a visible residue on crops. Do not apply such combinations within 3-4 weeks of harvest.

| FOR SOIL APPLICATION   |          |              |  |
|--|----------|--------------|--|
|  | Dilution | Rate         | Application Timing                           |
| For All Crops  |          | 1 qt - 4 qts | Apply to root zone every 1-3 weeks as needed |
| Do not apply with phosphate or sulfate fertilizer products. Any previously applied phosphate or sulfate fertilizer should be thoroughly flushed from fertigation equipment prior to application. Apply product slowly into fertigation equipment in the early part of the water application. |          |              |  |

**Store in a cool, dry, well-ventilated area away from heat, combustible and in compatible materials. Dispose of unused contents, container, and other contaminated wastes in accordance with local, state, and federal law.**

**NOTICE:** Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.html>
