

11 Essential Nutrients Specifically Formulated for Fruit & Nut Bloom

Steady & safe release of Calcium
Phosphate

Bloom Blend 1-10-0

- Promote fruit and bud set
- Improve pollen viability
- Safe during pollination
- Compatible with most fungicides

2-4 quarts per acre from pink bud
to leaf out

Applying Bloom Blend before and during bloom provides a steady release of nutrients while plants are undergoing a period of rapid cell division, flowering, and fruit growth initiation.

1. **Concentration:** Drives nutrient analysis up; reduces risk to crops
2. **Compatibility:** Quality, reliable products highly compatible with most mixes
3. **Availability:** Proven nutrient uptake via foliar, root, and soil application
