

Concentrated Essential Nutrients for Plant Nutrition

KEEP OUT OF REACH OF CHILDREN

WARNING: The application of fertilizing materials containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) that are toxic to ruminant animals. Use according to manufacturer's directions.

**DANGER: Causes serious eye damage.
Harmful to aquatic life.**

Wear protective clothing, gloves, eye and face protection. Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling. Remove and wash contaminated clothing before reuse. Avoid breathing vapor, mist or dust from this product. Not for human or animal consumption.

If in eyes: Immediately rinse with water. Remove contact lenses, if present and easy to do. Continue rinsing for 20-30 minutes. If irritation persists, seek medical attention

If on skin: Wash with plenty of soap and water. If redness or irritation persists, seek medical attention.

If swallowed: Rinse mouth (if conscious) and get medical attention if irritation persists.

If inhaled: Move the affected person to fresh air. If experiencing respiratory symptoms (shortness of breath, cough, irritation), call a poison center or seek medical attention.

**SHAKE WELL BEFORE USING
MAINTAIN ADEQUATE AGITATION AT ALL TIMES
DURING MIXING AND APPLICATION.**

Warning: Cancer and Reproductive Harm

RECOMMENDED USES FOR NexxGen

Uniformly apply the suggested rates in the following amounts of water per acre.

COMPATIBILITY: This product is compatible with most crop protection materials. A compatibility test is recommended when using new combinations. Consult a Nutrient TECH™ representative for additional information.

FOR FOLIAR APPLICATION			
	Dilution	Rate	Application Timing
Tomatoes and Peppers	By air: 10-25 gal By ground: 10 gal min	2 qts per acre	Apply every 4 weeks as needed, starting at first bloom
Citrus Crops	By air: 10 gal min By ground dilute: 100-250 gal By ground concentrate: 50-100 gal	2 qts per acre	Apply 3 times per season pre-bloom, petal fall and end of cell division/start of cell enlargement
Cotton (Upland, Pima, Acala)	By air: 5-25 gal By ground: 10 gal	2 qts per acre	Apply from pinhead square to early squaring, repeat in 2-4 weeks
Soy beans, Dry Beans	By air: 5-25 gal By ground: 10 gal	1-2 qts per acre	Apply at V5-V6 with herbicide, repeat in 2-4 weeks if needed

Store in a cool, dry, well-ventilated area away from heat, combustible and incompatible materials. Dispose of unused contents, container, and other contaminated wastes in accordance with local, state, and federal law.
