

# Tech-Flo<sup>®</sup> Zeta Zinc 22

- Safe to use throughout growing season
- Improves winter hardiness
- Influences bud vigor and fruit set
- Aids in freeze recovery
- Increases yields
- Use in dormant, delayed dormant, and foliar spray programs.

Zinc (Zn) is essential for plant growth because of its ability to influence auxin levels, growth hormones, and stem elongation.

12.00 lbs/gal

Nutrient	N	P <sub>2</sub> O <sub>5</sub>	K <sub>2</sub> O	Mg	Ca	S	Zn	Mn	Fe	Cu	B	Mo	Co
% by weight	0	0	0	-	-	2.5	22	-	-	-	-	-	-

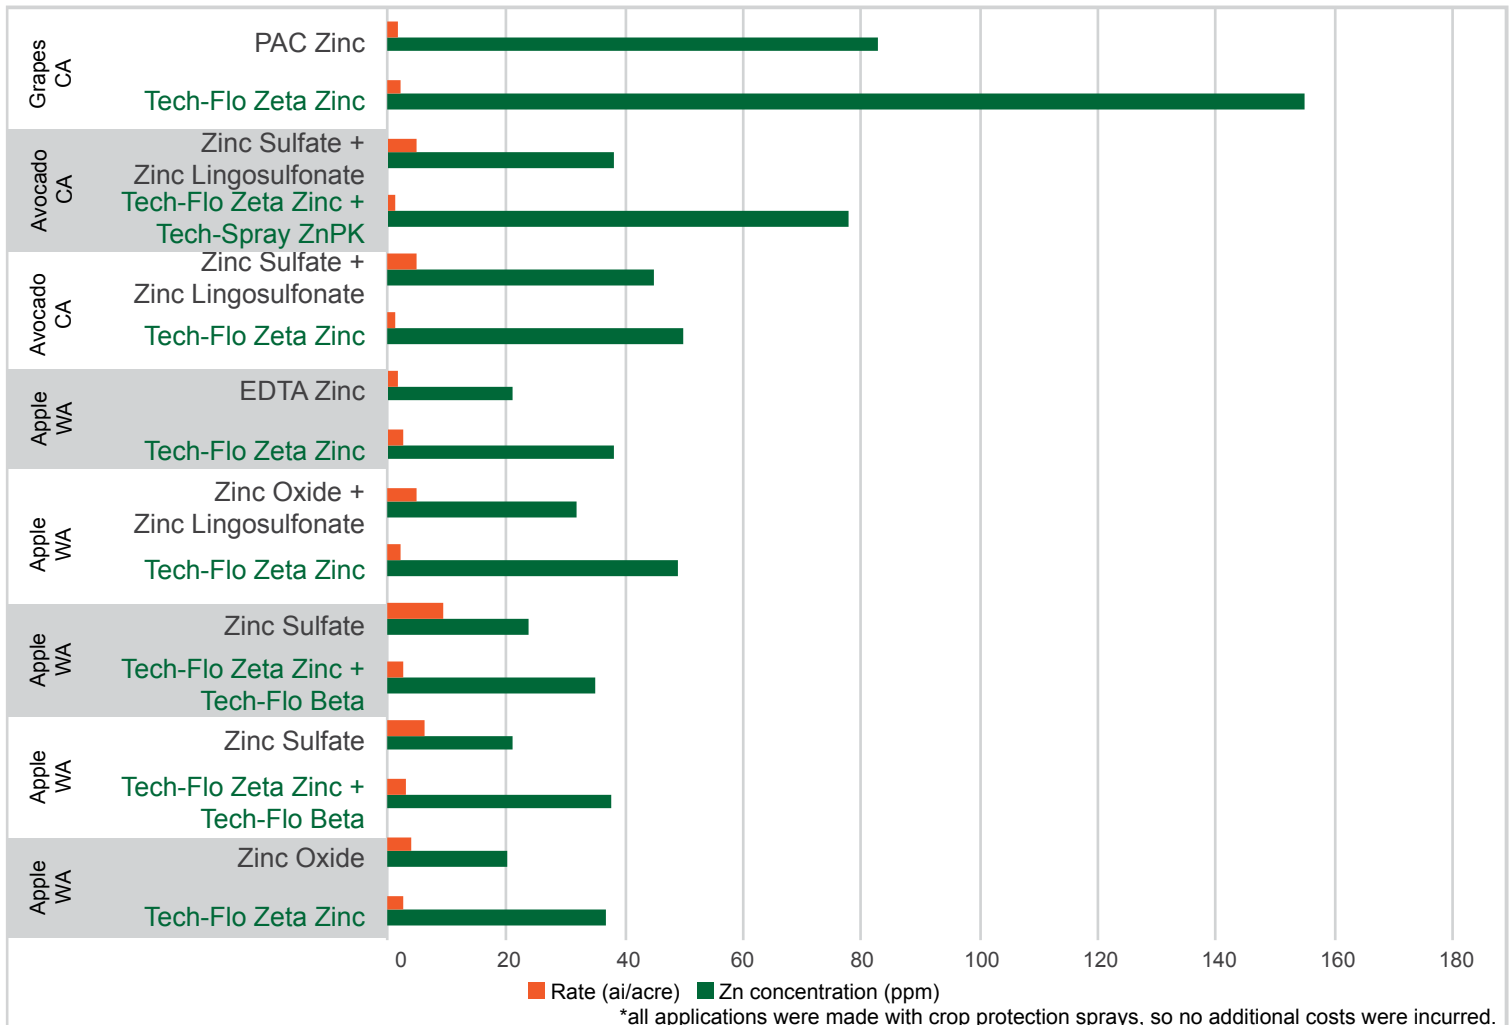

**Tech-Flo Zeta Zinc 22** supplies 22% Zinc in a safened flowable suspension formulated with Polysorbygen<sup>™</sup> that is extremely effective at influencing zinc levels in plant tissue. It is especially useful in areas where zinc levels are chronically low and on crops unresponsive to other forms of Zinc.

# TECH-FLO ZETA ZINC 22 VS COMPETITOR ZINC PRODUCTS

Tech-Flo Zeta Zinc 22% has been one of our most studied products because growers like the safety and dense nutrient concentration. The following data has been compiled from real world trials performed against grower's standards. Results are based on post-application tissue samples.

Product Name	Max Rate	*Price (\$/gal)	Nutrient Content	Cost (\$/lb ai)
<b>TechFlo Zeta Zinc 22%</b>	<b>2 qt/ac</b>	<b>\$41.68</b>	<b>2.64 lb/gal</b>	<b>\$15.79</b>
9% Chelated Zn	1 pt/ac	\$23.70	0.981 lb/gal	\$24.16
6.8% Zinc Amino Acid Chelate	48 floz/ac	\$35.00	0.72352 lb/ gal	\$48.37

\*Average Retail price

When growers need to apply enough zinc to make a noticeable difference, **Tech-Flo Zeta Zinc 22** outperforms the competition... and at a better value per acre.
